Pumps

Fairbanks Morse	Water & Wastewater pumps including: Vertical Turbine, Submersible Turbine, Split Case, Angleflow, Propeller, Submersible NonClog, Dry Pit NonClog, & Vertical Turbine Solids Handling Pumps	
Hydromatic	NonClog Submersible, Self Priming, Grinder & Effluent Pumps	
ITT Goulds	SST Multi-Stage, End Suction, In Line, Self Priming, Vertical Turbine, Submersible Water & Wastewater Pumps	
ITT Red Jacket	Smaller Turbine, End Suction Water & Wastewater Pumps	
Börger	Rotary Lobe positive displacement pumps for wastewater and sludge pumping applications. Also, crusher and chopper pumps.	
Griswold	American made ANSI, end suction centrifugal, self primer, submersible turbine, and vertical turbine pumps.	
TRUFLO	American made centrifugal process, ANSI and API style pumps. Mag-drive and multi-stage turbine designs available. Heavy-duty for tough jobs. Specialty applications.	
All-Flo	Air-driven dual diaphragm pumps. Non-stalling design in all constructions. Easy and inexpensive to operate and maintain.	
Tuthill	Industrial grade gear and circumferential piston pumps. Long or close-coupled. Mag-drive for seal-less requirements. Controlled flow of viscous product	

Tanks

Tank Connection	Bolted powder coated steel storage tanks using LIQ fusion 7000 FBE "Stronger than Glass" coating, bolted stainless steel storage tanks, shop welded steel storage tanks, field welded steel storage tanks, pedestal & elevated towers, including design, fabrication, and installation. Turn key systems available.	
-----------------	---	--

Controls

Healy-Ruff	Decades of experience with Controls solutions, pump panels, etc. Offering iControl web-hosted SCADA, affordable & easy to use.	
ITT Goulds Aquavar	Variable Speed Pump Controllers designed and pre-programmed specifically for constant pressure (booster pumps), constant flow (well pumps), or pump curve applications.	

Stations & Booster Systems

USEMCO	The industry leader for the custom engineering and manufacture of turnkey pump stations for Municipalities and Industry which includes Sewage Stations, Water Booster Systems, and Tanks. All the stations are pre-assembled and tested in house.

Control Valves

OCV

Pressure Relief, Pressure Reducing, Pressure Sustaining, Pump Control, Check Differential, Surge Anticipation, Rate of Flow, Altitude, Electronic & Float Control Diaphragm Actuated Control Valves

FloodSax

FloodSax

Alternative to sandbags. Can be used for flooding, pipe rupture, seal failure, ingress, isolation, etc. Quick, clean, disposable, compact, 5 year shelf life, 20 oz to 45 lbs in 3 min in fresh water.

BlastSax

BlastSax

Alternative to sandbags. Engineered for personnel/property protection from IED's, incendiary devices, firearm rounds, etc. Deployable tactical cover or blast containment barrier from a vacuum sealed pack. Expands from < 6 lbs/.75 cu ft to 225 lbs/ 6 cu ft in minutes.

Hatches

Halliday

Access Covers, Debris Baskets, Slide & Stop Gates and Mixer Masts

Cranes & Winches

Standard Services & 24 Hour Emergency Service

- Inspection Agreements
- Hoist Trucks
- Repair of all pump brands
- Complete Water / Waste Water system rehabilitation
- Control troubleshooting and rehabilitation
- Highly Qualified Service Personnel
- Fully Outfitted Shop with Crane & Wet Test Pit
- On site welding
- Pump & Controls rental

Stock Items

- Stainless Steel Chain
- Stainless Steel Trash Baskets
- Steel or Aluminum Door & Frame Assemblies
- Stainless Steel Guide Rail Pipes
- Poly & Stainless Steel Float Switches
- Stainless Steel Float Holders
- Submersible Nonclog Pumps
- Submersible Grinder Pumps
- Rental Pumps from 2 HP to 15 HP
- Control Panels
